WELCOME TO INCOME & PROPERTY ELIGIBILITY

1.0 WHAT IS THE SYSTEM FOR?

This site is used to determine eligibility for certain USDA home loan programs. In order to be eligible for many USDA loans, household income must meet certain guidelines. Also, the home to be purchased or served must be located in an eligible rural area as defined by USDA.

The site also allows you to determine whether or not you are eligible for a Water & Environmental loan.

2.0 WHO CAN USE THE SYSTEM?

The Eligibility site is a tool for anyone to use when trying to determine if they are eligible for a USDA loan, be it a property loan or a program loan. If you are eligible, the program’s website will direct you on how to apply.

3.0 WHO CAN I CONTACT FOR HELP?

If you have questions about a loan or a program, click the “Contact Us” link in the upper right hand corner of the Eligibility site to see a dropdown with the different programs available. Click on a program name to be directed to their contact information.
DETERMINING ELIGIBILITY

4.0 HOME

When you first access the Eligibility site, you will land on the Home page. To learn more about a program and whether or not you are eligible to apply, click one of the program links at the top of the screen. If this is your first time using the system, you must accept the property eligibility disclaimer, in order to access the eligibility map. If you do not accept the disclaimer, you will be returned to the Home page.

Property Eligibility Disclaimer

Every effort is made to provide accurate and complete information regarding eligible and ineligible areas on this website, based on Rural Development rural area requirements. Rural Development, however, does not guarantee the accuracy, or completeness of any information, product, process, or determination provided by this system. Final determination of property eligibility must be made by Rural Development upon receipt of a complete application. Viewing eligibility maps on this website does not constitute a final determination by Rural Development. To proceed with viewing the eligibility map, you must accept this disclaimer.

5.0 USING THE ELIGIBILITY MAPS

You have several options when trying to find an eligible property. If you enter in an address and click the “Go!” button, the map will zoom to that location and display a message, saying whether or not that address is located in an eligible area.

You can also zoom into a location by double-clicking on the map, using the scroll bar located on the left side of the screen, or scrolling in and out with your mouse. Once you have zoomed in close enough, click on the pushpin icon and click on the map. You will see a green push pin with a pop-up that displays the latitude and longitude of that location, as well as whether or not it is located in an eligible area. Addresses located in the tan areas of the map are ineligible for applications.

Note: To remove a pinned location, click the pushpin button again. To refresh a map and remove all addresses, you will need to click away from the screen and then back.
### 5.1 Moving a Pinned Location

If you want to move a pinned location across the map, move your mouse cursor over the green pin and left click. This will change the mouse cursor from an arrow to a pointing hand.

Once you have the hand cursor, left click and drag the pin to a new spot on the map. When you let go of the mouse, a new pop-up will appear with the information about your new pinned location.

After entering your comments, click the “Print” button. You should see a message, saying that your map PDF is being generated. When the PDF is ready, you will see the following pop-up:
